

Zensar achieves Guidewire PartnerConnect specialization in Testing Standards

Princeton, NJ, US, July 7, 2023: [Zensar Technologies](#), has announced that it has achieved the Guidewire PartnerConnect Testing Standards specialization. Zensar is a Guidewire PartnerConnect Consulting partner at the Advantage level and works with Guidewire in North America and EMEA. By recognizing its enterprise test solutions through specialization, Zensar offers a winning edge to global insurance companies in their transformation journey using the Guidewire platform.

Specializations are both regionally and globally based and require partners to demonstrate skills, knowledge, and competency in a particular Guidewire product or solution area. The achievement of specializations enables insurers to have more clarity and insight into which partners have proven capabilities in a region. In addition, partners with specializations can better promote their capabilities across Guidewire products and solutions.

"We congratulate Zensar on achieving the Testing Standards specialization. We are pleased to recognize their expertise and proven capabilities and look forward to continuing our work together to contribute to the success of our mutual customers' digital transformation journeys," said Molly Black, Senior Director, Partner Programs and Enablement, Guidewire Software.

Manish Tandon, CEO, and Managing Director, Zensar, said, "We are honored to achieve the Guidewire PartnerConnect specialization in Testing Standards for the P&C insurance domain. Guidewire is one of our strategic partners, and we are committed to serving our clients by investing in building world-class Guidewire capabilities and scale. We look forward to continuing our partnership with Guidewire and helping insurers thrive in an increasingly digital world."

Commenting on this announcement, Nachiketa Mitra, Executive Vice-President, and Head (Banking and Financial Services) Zensar said, "As a Guidewire PartnerConnect Advantage Partner with this specialization, we

are committed to staying at the forefront of technology advancements and industry best practices. By aligning our expertise with Guidewire's industry-leading technology, we are better positioned to help insurance companies navigate the digital transformation journey and achieve their business objectives.”

Please find more information about Guidewire specializations on the Guidewire website [here](#).

We have recently added this specialization to our existing range of Guidewire PartnerConnect specializations, which encompass various offerings such as Cloud Ready – AMER and PolicyCenter – EMEA, among others. The insurance team at Zensar leverages technical knowledge and skills achieved through these specializations for various Guidewire customer implementations, enhancements, and support for current and prospective clients. Zensar delivers digital transformation through Guidewire products and platforms across the insurance lifecycle.

Key benefits of the Guidewire specializations for Zensar's clients include:

- Agility and efficiencies of digital-led transformation.*
- Accelerates cloud journeys for insurers and offers scalable SaaS models, making them less CAPEX-heavy.*
- Brings in contextual data mapping that enables policy management to be more efficient, quick, and better customer resolution.*
- Enables insurers to achieve velocity in the implementation of “Automation First” Quality Assurance practices and adoption of the Guidewire Test Automation Framework*
- Breaks the various silos and legacy structure, which is at the core of the insurer's challenges.*
